

Clio's Shoes

Description:

THE SERVICE : I am completely adaptable to how you wish to do this. Currently we are working several ways.

Nurseries/pre-schools: I can arrange six weekly visit to measure those children whose parents have requested it. I can then either arrange a showing at the pre-school/nursery or parents can contact me independently to arrange visits.

Mother & Toddler groups: I currently visit two big groups on a monthly basis and do a full show with the ability to purchase there or arrange follow up visits. Smaller groups I visit on a six weekly rota to do foot measuring and check current fit of shoes. I can then do a follow up visit the next week with a selection of appropriate shoes to the group or individual visits can be arranged.

Wednesday at mine: I live in Chapel and am available at home every Wednesday afternoon from one to six. You can drop in but it is best just to phone/text me or check this site in case I am unavailable for some reason. If this is the case there will usually be a different afternoon scheduled in the same week. Look for ?shoes at mine? on the calendar.

Home visits: Just contact me and give your childs/childrens ages, sexes, current shoe size and sort of shoe you are looking for if known and we can arrange a convenient time for me to visit you, measure feet and hopefully fit and sell you a shoe that you and your child loves.
